Praveen Kumar J

Unity Developer

Unity Developer with a computer science background, currently pursuing an M.Sc. in Game Technology. I enjoy building gameplay mechanics, experimenting with game ideas, and understanding how interactive systems work. Seeking a Unity game development internship.

PROJECTS

Crow Jump — Completed

2D Platformer | Solo Project | Unity, C#

- Developed the complete game independently in Unity and C#.
- Implemented the gameplay mechanics and the player controller.
- Created the player character's pixel art. Environmental assets were sourced from itch.io.

Shapino — Team Project

Mobile Hypercasual Game | Unity, C#

- Contribute to gameplay mechanics and Unity implementation as part of a team.
- Responsible for UI placement.

Flappy Bird — Open-Source Project

2D Arcade Game | Unity 2D, C#

- Extended an open-source Flappy Bird-inspired project by implementing a score system.
- Improved gameplay and polish. Repository: github.com/PraveenTechWizard/Flappy-Bird-Unity

2D Action Platformer — In Development

Prototype | Unity, C#

- Building responsive movement: sprint, wall jump, and dash.
- Implementing player combat and enemy behaviour (patrol and attack) using a state machine.

TECHNICAL SKILLS

Game Engine:
Unity
Unity 2D
Unity 3D

Programming:
C#
OOP
Data Structures & Algorithms

Gameplay:
Player Controllers
Game Mechanics
Physics
State Machines

Tools:
Git, GitHub
JetBrains Rider

EDUCATION

M.Sc. Game Technology
Backstage Pass College of Gaming & Technology, Hyderabad
2025 - 2027

MCA
Anna University
2022 - 2024

B.Sc. Computer Science
A.V.C. College
2019 - 2022
